After a few self-released EPs and one previous album, Greensboro's sonic sons, **Glissade**, are back in overdrive with their epic new full-length 'Further.' The band's sometimes drone-y, always distortion-heavy sounds are reminiscent of the haze-induced vibes of bands like Flying Saucer Attack, Spacemen 3 or early Spectrum.

Blissed-out, instrumental space jams from North Carolina's finest psychedelic shoegazers. Fire up your headphones, sit back with the volume up and enjoy the beautiful noise.
